### Incident-to-Action Flow Chart

The chart below shows how each discipline incident type leads to school actions in response, split out by gender and race/ethnicity. The width of the data links depicts the number of incident occurrence. Colored vertical bars (nodes) and flows (links) allow user to drill deeper. By clicking a node or a link user can drill down; and by clicking again data view is restored. User "Selections" made are neatly displayed at the bottom of this chart.
